

# Starship – 600ton Subsidized Liner

The Subsidized Liner comes in several variants. The most common being the standard Stellar-Class and the slightly modified Bastien-Class Liners. There is a [supplement](#) by Loren Wiseman on RPGNow detailing the ship in four variants, including Deckplans and Adventure Seeds.

I have a problem with this ship, or – to be precise – with it's subcraft. According to TNE it sports a 10ton launch (a life boat by CT definition or customs) , CT assigns a 20ton launch

I will likely model the basic liner and at least the Mercenary Cruiser variant (similar to the ship detailed in the MegaTraveller Supplement [Assignment: Vigilante](#) available via [RPGNow](#)).

There are still a few models I am eager to make and the Liner is no exception. It is in the very early stages of blocking out the vessel, but a tiny preview is due today. See...
