

Vehicle – Resolve G-Carrier

An enclosed, armored military or paramilitary grav vehicle, intended for troop carrier duties. With performance similar to that of an air/raft, the **G-carrier** generally has a gun mount and a rear hatch door. It requires a crew of one driver (with air/raft skill), plus a gunner for the weapon, if any. It can carry 14 persons in total, plus two tons of cargo (or 250 kg of cargo for each person not carried). Thus driver, gunner and 5 tons of cargo is its maximum capacity.

Various examples include this *Resolve* (TL 12), as well as the *Lopec* (TL 15) and *Kankurur* (TL 15) classes of G-Carriers.

Vol (ac)	Name	Type	TL	Free	NOE/Cruise/Top	Duration	KCr	Seats	Notes
3 (4)	Resolve	G-Carrier	9	20	30/75/125	4 weeks	300	16	pr, tu, fc
