## Starships — 100ton Type H Bounty Hunter

The famed Type H (SN) Bounty Hunter from White Dwarf Mag No.70 is sadly one of the ccoolest ships ever designed an published for Traveller. The deckplan promised a very sleek ship.

One of the cooler Feature is it's revolving vehicle Bay. A design feature that practically encourages fast paced hit and run action.

The sad truth is there is no full side view available. Actually no one seems to know for sure how it's supposed to look like. This model matches the deck plans and the visible side profile of the published material.

I always wanted to do it in 3D and it was meant to prove every detail of it's ultra cool appearance.

How can it be, that it utterly fails to look cool?

I never expected it to look so chubby.

Now I'm going to tweak the model to look cool. And I will use Ian Steeds Version the "Huntress" as my primary source of dimenional data.
